

Painting Dynamic Watercolors

Bringing the Everyday to Life with

Brienne M Brown

Painting in watercolor is very exciting, but can also be challenging. During this 5-Day workshop, Brienne will demonstrate and explain her process in watercolor. Brown always uses value studies to create strong compositions and by focusing on values while painting, she can make color choices to create a desired mood. While sharing her love for the medium, she will put particular emphasis on getting your values correct and connecting shapes to create strong and dynamic watercolor paintings. During the first couple of days, Brienne will teach you how to use interesting value patterns to compose strong paintings. She will then discuss how she uses color to unify and set the mood of a painting. Throughout the workshop, Brienne will share useful training tools and tips to help you take your paintings to the next level. For the final two days, Brienne will share some great exercises you can use to improve your skills, demonstrate how to frame watercolors without glass, and share tips on plein air painting. Depending on the weather, we might do some plein air painting on the final day. Be prepared to work hard and have fun! No experience with watercolor painting is necessary, but some drawing experience is recommended.
